INSTRUCTIONS

1. Check

Please ensure the print quality of the label is clear and legible. If you do not have access to a printer please refer to point **4. Print at Post**. If you are sending multiple parcels, a separate label with a unique barcode is required for each parcel.

2. Secure

Securely attach the label to the top face of the parcel, ensuring tape does not cover any part of the barcode. Please pack your item securely. If it is a Dangerous Goods (including lithium batteries) packaging information can be found at auspost.com.au/dangerousgoods

3. Post

Post your parcel at any Post Office and you will be issued with a lodgement receipt. Alternatively, post your parcel in a red street posting box or in-store drop box (if size permits and your retailer has not specified otherwise). **Lodgement in Street-Posting Boxes is not permitted for parcels containing Dangerous Goods.**

4. Print at Post

You may print your label at most Post Offices - see auspost.com.au/print-locations to find out which Post Offices are included. You should:

- **Either** bring an electronic copy of this label on your phone or tablet and present this to the Australia Post counter staff who will scan the barcode print the return label and attach it to your parcel
- **Or** quote the following number to the Australia Post counter staff to enable them to print and attach a return label

Return Reference no. **WGJ5481888**

5. Dangerous Goods (including lithium batteries)

If you are returning Dangerous Goods (which may include lithium batteries or devices containing lithium batteries), please ensure that you follow the requirements for packaging dangerous goods. Information can be found by visiting auspost.com.au/dangerousgoods
